MEMORANDUM FOR THE RECORD

SUBJECT: Chain Bridge Traffic

25X1

Today I met with Mr. Meloon, [redacted] and others concerning a re-review of the Chain Bridge traffic situation. After thoroughly reviewing the initial and subsequent proposals it was noted that there is no logical solution to this problem which is acceptable to the principal parties concerned (Virginia State Highways, Trowbridge, et al and the public) within reasonable cost expectations. Any effort at improvement will cause extensive traffic difficulties and delays way out of proportion to the present difficulties and this could continue for six months to a year. Accordingly, I asked Logistics to prepare for me a paper citing these problems and I will submit this to the Director.
